

MEDICAL LOCKERS in DISTRICT 27-B1

We have local Lions Club medical equipment loan lockers. They would really appreciate your donations. They take most used medical equipment in good condition or new items.

The Lions turn around and lend medical equipment to anyone who needs it — free of charge. What a community gift. Minor deposit required on larger equipment.

Since they are staffed by volunteers from local Lions clubs, it is helpful if you can drop the items off. If you need the items picked up, give them a call and their team of volunteers will head your way. They take items in, wipe them down, put them on their shelves, then loan them out to those in need.

They also need/give away personal care items like adult diapers, women's pads for urinary leaks, and chucks, which are pads for under people when bedridden or sitting in a chair.

If you aren't sure if they take something, just ask them. If it is medical, they probably take it. Cash donations are also accepted and appreciated; that helps them pick up those disposable items that they quickly run short of.

Here are the locations:

ELKHART LAKE LIONS Lion Jim Schumacher 920-838-8186
