Dear Lions, Lionesses, and Ladies,

As your District Governor, it is my pleasure to welcome you to our 7th Dist. 27B-1 convention.

The Lions and Ladies of Montello have worked many hours to make this a worthwhile and an enjoyable convention.

We sincerely thank them all, and ask that you support those who have helped the Montello Lions in this endeavor.

Lions International is the largest, the most active, the most useful, and the most representative of all service club organizations. Our unparalleled record of community service, our great democratic spirit, and our unprecedented scope of activities, and that unique and individual something which distinguishes Lions from all others, have put us at the top in the service club field.

Our seminars will give each of you an understanding of our Lionistic programs and objectives. It is with your help as dedicated Lions, Lionesses and Ladies that we will continue to be the No. 1 District.

Our International Pres. Everett "Ebb" J. Grindstaff, of Texas, has truly given us a broader scope and more basic programs to help our respective communities "Show the Vision of Service".

May all of us return to our respective communities with a determination to make this one of the finest years in Lionism.

Remember the slogan TNT. Today, Not Tomorrow.

Vernon F. Pautz
District Governor 27B-1

Frederick J. Holtz

Fellow Lions, Lionesses and Guests.

Welcome to our Seventh District 27B-1 Convention.

Our hosts, the Montello Lions have worked hard to again give us a great Convention having hosted our Third and now our Seventh Convention; they indeed have gone that extra mile.

The Saturday Evening Banquet will feature Past International President, William C. Chandler of Montgomery, Alabama. His message will renew our spirit in Lionism.

We sincerely hope this Convention will be enjoyable, inspiring and motivating.

Yours in Lionism
Frederick J. Holtz PDG
Dist. Convention Chairman

Lionism in Action

As a result of my experiences of the past few years in Lionism, of watching the growth of Lionism, the practice of Lionism, by individuals of all stations in life, the improvement of individuals as a result of their contact with Lionism, the wonderful spirit of good will, friendship, and understanding that results from association with Lionism, I am confident that we are into an era of history that will be named "The Service Club Era", and I am further convinced that with our new theme, "Share the Vision of Service", we will make the International Association of Lions Clubs the greatest power in the world for peace.

We are now active in 153 countries or geographical regions of the world. As the spirit of friendship, understanding, and unselfish community service operates throughout the world, you may be sure that as a result of the activities of the Lions, only good can result. Is it not wonderful to realize that you and I are a part of this great work, and that we are actually doing our part towards a better world?

Keep in mind that the Lions' greatest glory is not in never falling, but in rising every time we fall; blessed are they who were not satisfied to let well enough alone. All the progress the world has made, we owe to them.

Yours in Lionism,

The Speed Queen Commitment To Build

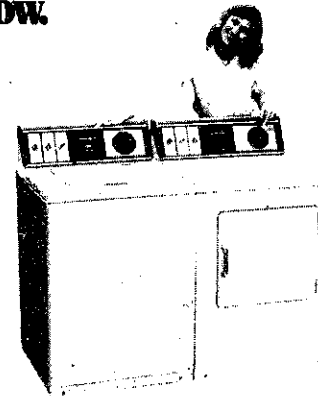

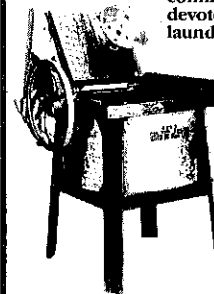

A Better Clothes Washer Has Continued

Since 1908: We're Not Stopping Now.

From humble beginnings in 1908 when Joe Barlow and John Seelig decided to build a better clothes washer, the Speed Queen Company of Ripon has grown substantially over the years while continuing to build better clothes washing and drying equipment.

Today Speed Queen is owned by Raytheon, and remains proudly committed to its position as the only U.S. company devoted exclusively to the manufacturing of laundry equipment. Current production includes home laundry washers, dryers and wringer washers, coin-operated washers, dryers and commercial dry cleaners, ironers, and tumbler dryers.

Long recognized as a leading manufacturer of coin-operated laundry equipment, Speed Queen maintains a solid reputation worldwide for quality and dependability. The cornerstone of the company's inception was the commitment to building a better product, and that commitment lives on today in every laundry appliance built by Speed Queen.
